

About us

Knowit is a consultancy firm that supports companies and organizations in digital transformation. We offer services in system development, data-driven customer experiences, the internet of things, cloud, cybersecurity, and management consulting. Knowit has around 3800 employees and has offices in Sweden, Norway, Denmark, Finland and Poland. Our vision is to be makers of a sustainable future.

Innovation Zone is Knowit's twist on innovation lab, where **consultants between assignments** are working on different innovation projects. We have supported several startups in their journey.

Knowit supports impact startups with tech specialists on a pro-bono basis or at a discounted fee through Innovation Zone.

Knowit for impact startups

Tech specialists pro-bono or at discounted price

Mentorship offer

Pro bono startup meeting with recommendations

If you're an impact startup (aiming to solve large-scale social or environmental challenges) we offer you a longer meeting/workshop, looking into what your most important needs are for developing your solution.

Mentorship meetings to get you started

Based on the startup meeting we pair you with the competence of your need. We offer 2,5 hours of mentorship meetings free of charge/Pro bono. You decide with the mentor how to distribute your meetings.

Specific competence (design, ux, AI, software development or management services) will be appointed to deliver 5 hours of deep knowledge and experience

Long term mentorship and coaching meetings

After the pro-bono meetings, we offer a mentor and coaching program with 20 hours of meetings for 450kr/h. You decide with the mentor how to distribute your meetings.

Do you need tech help?
